

VTS Change Decision

Information

Party Submitting Request: Horton Motorsports

Submission Date: June 24, 2008

Decision Date: January 12, 2009

Specification Change

1. Vehicle: Dodge Viper Competition Coupe

2. VTS / Appendix A Section: 2.N.

3. Requested Specification: Alternate Engine Build Facility

Background

On July 2nd, 2008 a Type 2 request decision was published suspending the requirement for Viper engines to be built and sealed by the designee of Dodge Motorsports. It was announced at the time that this decision would be evaluated at the end of the 2008 season.

Decision

Viper Comp Coupe engines may continue to be built by any source but all engines must be electronically sealed by an official SCCA Pro Racing Technical Inspector. Details of the electronic sealing program will be posted to the website shortly.
