

# VTS Change Decision

## Information

Party Submitting Request: Horton Motorsports

Submission Date: 4/23/2009

Decision Date: 6/8/2009

## Specification Change

1. Vehicle: Dodge Viper

2. VTS / Appendix A Section: 3.A.3

3. Requested Specification: Quaife Sequential Gearbox #QBE33G

## Decision

The request is not approved. There are sufficient transmission and gear ratio options for the Viper Comp. Coupe. The requested ratios would provide for a more useable 6<sup>th</sup> gear thereby resulting in a performance advantage.
