NOTICE TO PARTICIPANTS OF THE 2010 HONDA INDY TORONTO

In Canada, the coordination of radio frequencies and radio systems is managed by Industry Canada Spectrum, Spectrum Management Operations Branch, under the authority of the Radiocommunication Act. If you are planning to install and operate a radio system, including wireless - radio frequency devices at this year's Honda Indy Toronto event and do not already hold radio station licences issued by the Minister of Industry for the race in Toronto, the following guidelines are provided:

- Upon the timely submission of a completed application/spreadsheet along with the appropriate radio licence fees, the Toronto District Office of Industry Canada (see address above) will issue a **Short Term Authority** in advance, for the installation and operation of radio systems during the event.
- The information provided in your application/spreadsheet must be accurate and complete in order that we may co-ordinate and evaluate the radio frequencies to be used during the race, thereby minimizing the possibility of interference between radio systems. **Please submit your application/spreadsheet and fees by April 15, 2010.** Due to another large event in our area, we cannot guarantee authorizations prior to the race if they are not received prior to the April 15th, 2010 deadline. Please note that the installation and/or operation of radio apparatus without authority is prohibited under Section 4 of the Radiocommunication Act.
- All applications/spreadsheets will be processed on a **“first come, first served basis”** and all frequency requests are subject to availability. You will be required to accept the licence conditions of “no protection - non interference”, with the understanding that should your system cause harmful interference to other licensed stations, you will be required to either modify your station parameters, i.e. change of frequency or transmitted power, or to cease operation immediately. Also note that the radio authorization must be available for inspection by a Spectrum Management Officer on-site during the event, and during the time the system is in operation.
Industry Canada will have staff on-site during the entire event.
- Furthermore, it is advisable that the use of your radio system(s) be limited to your own race event or only as necessary. Your cooperation in the careful use of your radios will further help to minimize the possibility of radio interference during this year's Honda Indy Toronto event.

*For additional information please contact Alex Smolic at 905-795-0416, by fax at 416-954-3553
or by email at: alex.smolic@ic.gc.ca*

LICENCE FEES ARE PAYABLE IN **CANADIAN FUNDS**. PLEASE MAKE CHEQUES PAYABLE TO **“THE RECEIVER GENERAL FOR CANADA”**. YOU MAY ALSO SUBMIT THE APPLICATION AND MAKE YOUR PAYMENT BY VISA OR MASTER CARD BY FAXING THE TWO (2) FORMS INCLUDED IN THIS PACKAGE TO LATA CHAND-RAGGANADAN AT 416-954-3553.

NOTICE TO PARTICIPANTS

MOSPORT

In Canada, the coordination of radio frequencies and radio systems is managed by Industry Canada Spectrum Management, under the authority of the Radiocommunication Act. If you are planning to install and operate a radio system, including wireless - radio frequency devices at Mosport and do not already hold radio station licences issued by the Minister of Industry for your race at Mosport, the following guidelines are provided:

- Upon the submission of a completed application/spreadsheet along with the appropriate radio licence fees, the Toronto District Office of Industry Canada (see address above) will issue a **Short Term Authority** in advance, for the installation and operation of radio systems during the event.
- The information provided in your application/spreadsheet must be accurate and complete in order that we may co-ordinate and evaluate the radio frequencies to be used during the race, thereby minimizing the possibility of interference between radio systems and existing spectrum users. **Please submit your application/spreadsheet and fees ASAP** to allow us the maximum time to process your frequency request before commencing operation. Please note that the installation or operation of radio apparatus without authority is prohibited under Section 4 of the Radiocommunication Act.
- All applications/spreadsheets will be processed on a “**first come, first served basis**” and all frequency requests are subject to availability. You will be required to accept the licence conditions of “no protection - non interference”, with the understanding that should your system cause harmful interference to other licensed stations, you will be required to either modify your station parameters, i.e. change of frequency or transmitted power, or to cease operation immediately. Also note that the radio authorization must be available for inspection by a Spectrum Management Officer on-site during the event should any issues arise.
- Furthermore, it is advisable that the use of your radio system(s) be limited to your own race event or only as necessary. Your cooperation in the careful use of your radios will further help to minimize the possibility of radio interference.
